The powers and responsibilities of a judge vary across different jurisdictions. Each case brought in front of a judge has numerous values, emotions, and stakes attached to it.

Acquiring the power and position to strike that gavel requires certain requisites. Educational qualifications and experience are not enough to become a Judge. Owing to the sensitivity of cases and intricacies involved in jurisprudence, the role of a judge is highly critical. The selection of candidates for the judgeship is administered by experts from the field who evaluate their profile on various parameters. Here comes the role of the institution. IIL has constructed a program which focuses on the syllabus of judiciary exams and majorly in the subjects which are commonly included in all state’s syllabus. This program is made exclusively for fourth year students and final year student as they are prepared well enough and ready to spread their wings. IIL has made a structured module to cover all the vitals for the students.

The pathway to becoming a Judge is lengthy and demands a great level of hard work but it can lead to a promising career. Counted among the most reputed professions, the position of a judge is on top of the jurisprudential order. As the exams take a lot of patience, hard work and determination IIL has organized a program for this. Sessions are being taken thrice a week after their classes and taken by the subject specialized faculties; we invite teachers from coaching classes and also the alumni who have cracked the exam like Shivani Saini, Apeksha Yadav, Akansha Beck and Juhi Singh. They were invited to take a few sessions for the students to motivate them. The sessions were very interacting and students enjoyed the one on one talking sessions. Through the classes students are evolving Critical Reasoning Skills, Reading Comprehension and writing Skills.

The students are showing great response and appreciating the institution for taking this step for preparing for the exam early than others. The attendance was great during the sessions. IIL not only covers the subjects but also conducts classes for judgment writing and classes to cover current affairs. IIL is trying to give it all to the student which an institution can and hence the efforts of IIL are showing great results through the selection of the students.

BE A SCHOLAR!!

WHO IS A SCHOLAR ?

An individual who is versed or skilled in law. The term jurist is ordinarily applied to individuals who have gained respect and recognition by their writings on legal topics. A jurist is a person with expert knowledge of law; someone who analyses and comments on law. This person is usually a specialist legal scholar, mostly (but not always) with a formal qualification in law and often a legal practitioner. It is easier to find job-oriented, practical LLM programs abroad. Many Indian law graduates aspire for an international legal career and want to settle abroad. A good LLM abroad can open that door if calculated steps are taken.

Students who are keen to pursue their further studies from abroad and have less guidance usually face problems to walk on the right path, here is the role of IIL. IIL conducts this program in alternate years for the students who are interested. The program is focused on the IELTS (International English Language Testing System) or TOEFL (Test of English as a Foreign Language).
