## **4.3.1 INSTITUTION FREQUENTLY UPDATES ITS IT FACILITIES INCLUDING WI-FI**

## WI-FI & INTERNET

- **Wi-Fi Facility**

Whole campus is Wi-Fi enabled is Wi-Fi enabled with high speed internet connection to allow the students to access the internet no-matter wherever they are. The coverage is not just limited to the classrooms, instead it extends to all the facilities within the campus premises. Staff and Students are informed to utilize the Wi-Fi Facility by registering their i-connect devices for the active usage of the facility.

- **Internet Facility**

Enhancement of internet speed for faster connectivity and data flow. Dedicated fiber optic line connection, which started with 2 MBPS and gradually increased to 80 MBPS and 2nd 50 MBPS line.

- **Firewall Internet Security**

Internet Security through Fortinet firewall internet security system installed. A firewall is vital for protecting students and instructors against cyber threats in College networks. A firewall is a security solution that monitors and regulates network data and traffic. To prevent dangerous network packets, it functions as a barrier between a trusted Network and an untrusted network

## COMPUTERS & NETWORKING

- **Computers Facility**

Computers are one of the most valuable resources in a classroom because they serve so many useful functions. With computers and the internet, students today have a wealth of information at their fingertips that can help them develop their research and communication skills while preparing them for a future career in a workforce that is increasingly reliant on computer technology.  
220 computers & Laptop Added for Student, teachers and staff members.

- **Audio Video facility**

We are providing audio visual room for the teaching and recording lecture

- **Server System**

Server installed to facilitate 24 hours access to internet and databases within the campus. Functions and Uses of Server Main function of server is to access, hold and transfer all files and data from other computer machine over the computer network. Local network is used for making connection with multiple computers, in organizations.

- **Interactive Classes**

All classroom, Conference hall and Auditorium has updated IT and ICT facilities like Computer, Projector and Audio mike system. The modern classroom is changing rapidly, and A/V technology is pushing that change forward, allowing teachers and students to connect in new, more effective ways

The Institute was following hybrid & blended teaching since long. But with the outbreak of Corona Virus-19 the Institute of learned 100% IT enabled. The institute Purchased License of Various of Microsoft Team Application with 10, 00,000/- users for classroom teaching & conducts events & meeting. All the students were given Individual logins of Microsoft Team App for regular classes & events etc.

The Institute has taken more than 3000 virtual classes & conducted 24 National & International virtual events lectures 2020-21 which were graced by eminent legal luminaries

- **Adv. Harish Salve**, Sr. Advocate, Supreme Court of India
- **Adv. Abhishek Manusinghvi**, Sr. Advocate, Supreme Court of India
- **Adv. Salman Khurshid**, Sr. Advocate, Supreme Court of India
- **Hon'ble Justice Mr. M. R. Shah**, Judge Supreme Court of India etc.

All these events can be seen at our Facebook page.

- **Language Laboratory :**

A language laboratory at IIL contains electronic and mechanical equipment's equipped with new tools and softwares designed and arranged to make foreign-language learning more effective than is usually possible without it with the aid of this lab, Students are taught several Foreign Language like English, French, and German. It is also effectively utilized by students and faculty members for various self-enhancement and soft skill development activities.

- **Computer Networking**

An interconnection of multiple devices, also known as hosts, that are connected using multiple paths for the purpose of sending/receiving data or media. Computer networks can also include multiple devices/mediums which help in the communication between two different devices; these are known as Network devices and include things such as routers, switches, hubs, and bridges. Centralizing IT facility by laying fiber optic cable connecting all the building in campus. Separate IT team for updating and maintaining the IT infrastructure.

- **Anti-virus**

Anti-virus system for all machines in the campus along with the server. Protecting your organization from viral attack is of course a high priority for all involved. To this end, you need a strong, proven and far-reaching antivirus solution protecting users, networks, machines and data.

## **SOFTWARE & APPLICATION**

- **Licenses Microsoft Software O.S,**

Original Licenses Microsoft operating software.  
A comprehensive program that includes a unique set of technologies, services, and rights for using Microsoft products efficiently, Software Assurance helps keep your education up to date and ready to respond quickly to change.

- **Microsoft Office Application**

Microsoft Office is a suite of applications designed to help with productivity and completing common tasks on a computer. You can create and edit documents containing text

and images, work with data in spreadsheets and databases, and create presentations and posters.

- **ERP Solution**

It also hosts ERP software which is accessed by faculty as well as students equally. Educational institutions handle massive amounts of data and information on a regular basis and must have continuous access to student information. In many institutions, it is a norm to use manual processes for important tasks. Such systems require more time and energy and are also subject to human errors and duplication of data. In the case of institutions that have multiple branches, data integration is nearly impossible, resulting in error-prone decision making. Educational ERP software systems provide technical support for institutions by automating the complex data management process. Link is <http://103.21.55.242/accsoft/studentlogin.aspx> & Barcode

- **ID Card**

Identity card is a useful to show student identity, it is also use barcode format for issuing of books issue in library

- **Bulk SMS/Whatup App:**

The institute also uses Bulk SMS & Whatsapp services which serve as a focal point of interaction among parents, teachers and students.

- **Online Education Software**

Microsoft team application a persistent chat-based collaboration platform complete with document sharing, online class and meeting. A simple one-time per device solution to support all learners with desktop apps like Word, Excel, PowerPoint, Microsoft Teams, Minecraft: Education Edition, and more. This license also provides cloud management through Microsoft Intune for Education, to save time by managing your devices in a single dashboard. During this phase of pandemic, institutions are forced to conduct their sessions online. It is very likely that if you are a student or a faculty, your institution provided you with an educational

- **Digital Payment Facility**

The Digital India programme is a flagship programme of the Government of India with a vision to transform India into a digitally empowered society and knowledge economy. “Faceless, Paperless, Cashless” is one of professed role of Digital India. Promotion of digital payments has been accorded highest priority by the Government of India to bring each and every segment of our country under the formal fold of digital payment services. The Vision is to provide facility of seamless digital payment to all citizens of India in a convenient, easy, affordable, quick and secured manner. Various modes like UPI, NEFT, mobile wallets, PoS terminals, Razor pay and API-based website Payment Gateway solution.

- **CRM Software**

Customer relationship management (CRM) is a technology for managing Institute

relationships and interactions with Student and Parents. The goal is simple: Improve Admission relationships. A CRM system helps Institute stay connected to Student and Parents, streamline processes, and improve profitability. The institute is using **Lead Squared** and **Tata Tele** software Service

## **WEBSITE DOMAIN**

- **Website Domain**

Indore Institute of law Use Website is indoreinstituteoflaw.org and indoreinstituteoflaw.co.in, iconeducation.co.in for student, teaching & non-teaching Staff mail ids, I have Microsoft Team App (1000000 Licenses) & office 365 E-mail (1000000 Licenses)Purchased.

- **E-mail ids**

When you become associated with any of the educational institutes, then the new email id is generated. This email id is of educational. This email id requires an account that requires the name in the beginning. Mostly, the email id is generated and used by the student and professors. Your institution or university provided you with an educational email address with the domain.

## **E-RESOURCE**

- **E-resource**

E-resource center uses computer for providing various e-resource to its student. Electronic resources form one of many formats that the Library collects to support its universal collections. Electronic resources include, web sites, online databases, e-journals, e-books, and physical carriers in all formats, whether free or fee-based, required to support research in the subject covered, and may be audio, visual, and/or text files

- **LMS [Moodle@4.0](#)**

All-in-One learning management system with mobile learning, virtual classroom, M&E System. Offline and Virtual Classroom. Comprehensive LMS Platform for Education

- **MOOCs-**

At Indore institute of law we are dedicated and bound to provide bestof the practices for delivering academics for the development of thestudents. Keeping it in mind the have incorporated Massive Open Online Courses (MOOCs). An open source application which will make the law students not only techno savvy butalso develop content according to the need of a content requirementsof the industryWith the help of MOOC students can access knowledge 24\*7 and inhelful in accessing content and using ICT enable classroom andknowledge

- **Manupatra**
- **SCC**
- **Ouriginal Formerly Urkund**
- **Inflibnet**
- **West Law**

## **SECURITY SURVEILLANCE SYSTEMS**

- **CCTV Camera system**

Basic Closed Circuit Television (CCTV) Infrastructure is used to observe movements from a central room, and consists of one or more video cameras that transmit video and audio images to a set of monitors or video recorders. CCTVs are typically used by the Collage for surveillance in areas frequented by the public that need monitoring. Recently though, universities across the length and breadth of the country have resorted to the use of CCTVs for policing campus activities and to keep the students in check and under control. There are 102 CCTV cameras mounted on different location in the campus.

## **POWER BACKUP SYSTEM**

- **UPS**

A USP backup is an uninterruptible power supply backup, which means that it is a backup for all the data that you own. In short, this means that you will be saved from having to start over again as this will send power when there is no power. The UPS is also used when there is a problem with the power supply, spikes, and dips in voltage.

## **IT RULES & REGULATION**

Following rules and regulations apply to students for using the IT facilities and services at Indore Institute of Law:

- Students must present a valid Identity Card before using the computer systems.
- Internet facility is only for educational/ study purpose. Users are strictly prohibited from downloading, viewing or distributing any offensive materials.
- Users are strictly prohibited from modifying or deleting any important files and installing any software or settings in the computer.
- Tampering with the hardware or software settings will not be tolerated. Unauthorized copying and/or installing of unauthorized software are not permitted. This may be a violation of copyright laws.
- Computers and peripherals are not to be moved or reconfigured without prior permission.
- Users are strictly advised to log out whenever they are done using any computer. IIL will not be held responsible for the protection of data or account when users leave their system logged in with their accounts.
- Violation of any of the above rules may result in disciplinary action and the loss of privileges of using IT facilities at IIL.
